THE
Florence Sewing Machine,
Like "Gold Tried in the Fire,"
Is neither consumed nor injured by competition and opposition, fair or unfair. Although companies, OLD and WEALTHY, combine to crush the YOUNG and JUSTLY POPULAR "FLORENCE," their efforts are unavailing.
"IT IS A FIXED FACT"
That its reputation is *strengthened* by every *fair, practical* and *intelligent* trial. It stands the practical test of PRACTICAL SEWING upon a greater range of work than any other Family Sewing Machine in use.
It is Simple in its Construction.
☞ If some interested person tells you that it is "complicated," come and examine the Machine for yourself. *It will do ALL that it is recommended to do.* If you are told, by the "disinterested," that the "Florence" will not run with *linen thread,* come and see it tried, and you will be thoroughly convinced that said statement is *wholly wrong.*
The "Florence" never fails to give entire satisfaction, after a Fair, Practical, Intelligent Trial.
EVERY MACHINE IS WARRANTED.
No risks sustained in purchasing these machines. All are respectfully invited to call and investigate their [illegible]
Practical Working.

For Sight is Priceless!
BUY THE DIAMOND SPECTACLES
THEY WILL PRESERVE IT.
THE DIAMOND GLASSES,
Manufactured by J. E. SPENCER & CO., New York which are now offered to the public, are pronounced by all the celebrated Opticians of the World to be the MOST PERFECT, Natural, Artificial help to the human eye ever known.
They are ground under their own supervision, from minute Crystal Pebbles, melted together, and derive their name, "Diamond," on account of their hardness and brilliancy.
The Scientific Principle on which they are constructed brings the core or centre of the lens directly in front of the eye, producing a clear and distinct vision, as in the natural healthy sight, and preventing all unpleasant sensations, such as glimmering and wavering of sight, dizziness, &c., peculiar to all others in use.
They are mounted in the finest manner, in frames of the best quality of all materials used for that purpose. Their finish and durability cannot be surpassed.
CAUTION.—None genuine unless bearing their trade mark ◇ stamped on every frame.
LOWELL & SPENCER,
Jewelers and Opticians, are Sole Agents for Bangor, Maine, from whom they can only be obtained. These goods are not supplied to Peddlers, at any price.

DAIRY FARMING.

The following is an abstract of a lecture on Dairy Farming, delivered by X. A. Willard, Esq., of Little Falls, N. Y., at the Maine State College of Agriculture and the Mechanic Arts at Orono, June 22d:

The great obstacles in the way of improved farming are the drudgery and the exhaustive waste of plants and human life in ordinary farm operations. Machinery now greatly aids man in a multitude of ways, but with all the aid which machinery furnishes, nothing can be done without the co-operation of earnest men and women. There is in this respect a great difference between English and American women.

In America many women think it dishonorable to participate in the operations of the Dairy. In England, on the other hand, they think it a privilege and a pleasure. Lady Piggott, wife of Sir Robert Piggott, owns a herd of short horns noted for their dairy qualities—one of the finest herds in the United Kingdom.

The first attempt at progress in American Agriculture was made by Jethro Tull, the inventor of the horse-hoe.

Liebig's division of plants is an excellent one. He has divided them into 4 groups, viz:

1st. Plants requiring in abundance phosphoric acid, as the cereals.

2d. Plants requiring lime, as beans, peas, [illegible] plants.

3d. Plants requiring potash or soda, turnips and carrots.

4th. Plants requiring silica.

Wheat should follow clover as a crop.

At the time of seeding in spring a mellow soil is wet in 1 in one day to a depth of 1 inches, in two days to a depth of 4 inches, and in [illegible] days to a depth of 12 inches.

In an annual rain fall of 28 in., 28.50 lbs. of ammonia, and 68.01 lbs. of nitric acid, furnishing 41.41 lbs. of nitrogen will be deposited upon an acre of land. Since forests tend to an increase of the rain fall, they are especially advantageous, and should not unduly be destroyed in amount.

Great care and observation should be exercised in the operation of a dairy farm especially. Stock is diseased, and lost, fences are broken down and crops destroyed, and machinery thrown out of order, all on account of want of care and observation.

The oldest cheese district in the United States is Herkimer Co., N. Y. Here, a man by the name of Arnold, from New England, over 70 years ago, commenced the manufacture of cheese as a specialty.

No other branch of industry has increased to such a large extent in the United States within the last 8 years as has dairying. And, to-day, the American dairying interest represents a capital of $1,000,000,000. Commissioner Wells estimates the Dairy Product of the country at $400,000,000, the value of Cotton at $300,760,000, of corn at $450,000,000, of wheat $376,000,000, of oats at $185,000,000, and of wool at $75,000,000.

Mr. Willard estimates the butter and cheese product of the United States for 1869 as follows:

Cheese, 280,000,000 lbs., valued at $35,000,000.

Butter, 700,000,000 lbs., valued at $210,000,000.

New York in 1864 produced, butter, 65,000,000 lbs.; cheese 72,000,000 lbs., both valued at $40,000,000.

Wheat 6,000,000 bush., Oats 10,000,000 bush., Rye 2,000,000 bush., Corn 17,000,000 bush., W[illegible] 16,000,000 lbs., valued at from $55,000,000 to $57,000,000.

These statistics show the very great importance of the dairy interest.

By the U. S. Census of 1840, the butter, cheese and milk of New York were valued at $10,490,000. The same of the country were valued at $34,000,000.

In 1850 the United States and Territories produced: Butter 313,345,300 lbs, cheese 105,535,893 lbs.

In 1860 Butter, 460,091,872 lbs., cheese 103,663,927 lbs., valued at $200,000,000.

Com. Wells' estimate for 1869 places the value of grain, hay, tobacco, potatoes, wool, hides, and flesh of animals at $2,233,050,000, and of daily products at one-fifth of this amount.

He estimates the value of all our industrial products at $3,232,050,000, the dairy products being valued at one-eighth of this amount.

In 1867 the cheese product of the United States was 200,000,000 lbs, one-half of this amount having been made in New York.

In 8140—1850 American cheese began to be shipped abroad, mostly to Great Britain.

In 1848—49, the United States exported 15,000,000 lbs. cheese; in 1849—50, 12,000,000 lbs; in 1860, 23,000,000 lbs.

In 1861 the United States exported 40,000,000 lbs. cheese.

In 1862, 30,000,000 lbs. cheese, 20,000,000 lbs. butter.

In 1863, 41,000,000 lbs. cheese, 23,000,000 lbs. butter.

In 1864, 40,000,000 lbs. cheese, 14,000,000 lbs. butter.

In 1865, 46,000,000 lbs. cheese, 46,000,000 lbs. butter.

In 1866, 45,000,000 lbs. cheese, 5,000,000 lbs. butter.

In 1867, 55,000,000 lbs. cheese.

In 1860, there were in New York 17 cheese factories; in 1866 they had increased to 500, and in 1870 they had reached 800.

The consumption of butter and cheese in Great Britain is greater than the supply. Her people consume 170,000,000 lbs. of their own make, 80,000,000 lbs. from America, making a total of 300,000,000 lbs. of cheese consumed by the people of Great Britain annually.

The annual consumption of cheese in the United States and Canada 160,000,000 lbs.

Great Britain produces 170,000,000 lbs. cheese, and consumes 300,000,000 lbs.

United States produces 230,000,000 lbs. cheese, and consumes 160,000,000 lbs.

Canada produces 15,000,000 lbs. cheese.

Total production, 424,000,000 lbs. Total consumption, 460,000,000 lbs.

The annual increase in the consumption of cheese in Great Britain is 10,000,000 lbs.—United States 8,000,000.

The next lecture will be given on this Monday evening, at the lecture room of the Chemical Laboratory, commencing at 7½ o'clock, P. M. Subject—"Soils and their management."

A. Campbell, delegate from Canada to England, has power to demand from the Imperial Government, full indemnity for the late Fenian raid and full protection against future ones. It is also stated that he is to impress upon the Home Government the importance of a Railroad to the Pacific.

The treaty between the Allies and the Paraguayan Government had not been signed at last advices. A bill recently introduced to the Brazil Chambers for the abolition of slavery, provides for the freedom of all children of slaves born after the passage of the act.

Andrew Stafford, Mail Agent between Baltimore and Philadelphia, was arrested on Thursday for robbing the U. S. Mail of letters and money. He admitted his guilt and was committed to jail in default of $10,000 bail to await the action of the Grand Jury.

MAINE CONGREGATIONAL CONFERENCE.

FORTY-FOURTH ANNIVERSARY, THIRD DAY.

YARMOUTH, June 23 1870.

At 6 o'clock—Prayer Meeting in the First Church, conducted by Rev. Geo. Harris, of Auburn; and in the Baptist Church Upper Village, led by Rev. A. E. Ives, of Castine.

8 o'clock—Reading Scriptures, by the Moderator—Prayer, by Rev. H. Ilsley of South Freeport.

The following resolution was introduced:—Whereas the common use of Tobacco is alarmingly prevalent in our country, especially with the young, our strength and glory; and whereas the use of Tobacco is undermining the power of the Church and State,—for it is declared by eminent physicians and philanthropists in this and other Nations to be a physical, intellectual and moral evil and manifestly a great ally of Intemperance:

Therefore, resolved,—that we fully accord with the views represented in the preamble, and that in the judgment of this Conference of Churches, the use of Tobacco in any form, should be discountenanced by the christian church, ministry and press.

After pertinent and animated remarks, it was adopted.

Rev. Dr. Parker, of Gorham, chairman of the committee on a Triennial Conference of Churches in this country reported their hearty concurrence in it,—and Rev. Dr. Parker, of Gorham, S. P. Fay, of Bangor, and E. Tappan of Norridgewock, were appointed a committee to confer with those of other bodies on the subject.

Temperance.—Resolution adopted:

That it is the sense of this Conference that the ground the church should take on the subject of Temperance is "Teetotalism,"—as regards the use of all intoxicating liquors as a beverage, and we will do all we can to pledge those within our influence to the practice of this principle.

Salutations of Corresponding Bodies.—Letters were received from Missouri, Wisconsin, Nova Scotia and New Brunswick, and from the East Maine Methodist Conference.

The Moderator [illegible] fraternal greetings—Sung, "Blest be the tie that binds our hearts in christian love."

The Report of the Corresponding Secretary, Rev. D. Garland, of Bethel, was read, giving the condition of the churches, with other matters, which he deemed appropriate to this "Memorial Year."

The number added to the churches, 874. Increase of members, 230. Whole number of members, 19,43[illegible]. In Sabbath Schools, 26,[illegible]. [illegible] He referred to the decease of eleven ministers connected with the Conference, and after reading the names of the departed, all united in singing "Shining Shore."

Rev. T. A. [illegible], of Waterville, chairman of the Committee [illegible] made report [illegible]

[illegible] Hampden [illegible] reported on the [illegible] recommending the establishment of such a School, and providing for the appointment of an executive committee of five, [illegible] committee [illegible] Conference [illegible] reference to its location. After approving remarks from Drs. Harris of Bowdoin College, Dr. Thurston of Searsport, and Rev. S. P. Fay of Bangor, the report was adopted. On the latter's motion, the Institution is to take the name of the donor who will contribute the largest sum towards it, not less than $25,000.

The Executive Committee are Revs. J. D. Emerson, of Biddeford, R. B. Howard, of Farmington, H. F. Harding, of Machias, H. A. Shorey, of Camden, and Hon. N. Dingley, of Lewiston.

The Bible cause was presented by Rev. Dr. Gillett of Hartford, Conn., and Resolutions were adopted, recognizing with devout gratitude, the effect of the American Bible Society, now in progress, to see that every family in our land, of every tribe and tongue, is supplied with a copy of the Sacred Scriptures, and heartily sympathizing in the vast foreign work of the Society.

Subsequently the question, "What position ought the churches to take, respecting the Bible question which is now agitating the public mind?" The Bible in our Schools, was discussed by Rev. A. E. Ives, of Castine, President Harris, of Brunswick, Rev. D. Fiske, of Bath, and Rev. James Cameron, of Greenville. The chief point presented was that the efforts of the Romanists in this and other directions, should be guarded against so that our liberties, rights and institutions be not lost or perverted.

Sung—"How precious is the Book divine."

Congregationalism, as the Mother of Freedom. The topic was introduced by Rev. Dr. Herrick, of Bangor. Dr. Harris of Brunswick, and Rev. S. P. Fay. The latter referred to his reception by the Ohio Conference, as delegate from the Maine conference, and of their pledges and action in reference to celebrating this memorial year. Sung—"How firm a foundation." Benediction by Rev. Dr. Fiske, of Bath.

2½ P. M.—Closing Services.

Sung—"In the cross of Christ I glory." Reading the Scriptures, and Prayer by Rev. Chas. Tenney of Biddeford.

Administration of the Lord's Supper—Services conducted by Rev. B. G. Snow, of Mt. crome [illegible], and Rev. Dr. Parker, of Gorham, by whom prayer and remarks were offered.

Sung the last two verses of the Missionary Hymn.

Remarks followed by Rev. C. Packard of Waldoboro, addressed to those who have not yet rendered allegiance to Christ, and touching upon some reminiscences of the past history of the church where we were met, now 140 years old.

A vote of thanks to the people of Yarmouth for their abounding hospitality, and to the Rail Roads and Steamboats for their reduced fare, was cordially passed, to which a happy response was made by Rev. G. A. Putnam, the Pastor of the church.

United in singing a Hymn of Christian fellowship. Benediction by the venerable Rev. Isaac Rogers, of Farmington. Adjourned.

7½ P. M.—The Moderator, having returned home, Rev. S. Baker, of Orono, was chosen moderator pro tem. Scriptures were read, and Prayer offered by Rev. Lo Goodrich, of Wells.

The chairman read his report as Secretary on Sabbath Schools in this conference. Number of Schools, 230. Teachers, 2,20[illegible]. Pupils, 20,601. Total, 29,157. Uniform Lessons, in 104 Schools. Sabbath School Concert observed in 103. Contributed for Benevolence, $0,340.

Remarks to Parents and Teachers, were made by Rev. E. R. Osgood, of Houlton, and to the children, who were present in large numbers by Revs. E. R. Borchers, of Bridgton, (a German by birth) B. G. Snow, of Microneslia, James Cameron, of Greenville, (a Scotchman) and H. A. Shorey, of Camden.

The singing was by the Sabbath Schools of Yarmouth, interspersed during the other exercises, and led by Dr. Burbank, of Yarmouth, as has been the singing during the whole session of Conference.

Adjourned—after Benediction, by Rev. J. E. Mason of Thomaston. Meeting, in 1871, with the Winter St. church, Bath.

The Princess Edithe was examined at the Tombs in New York yesterday by Dr. Nealis, who pronounced her an adventuress, and said her recent queer actions were not the result of hallucination.

UNIVERSALIST STATE CONVENTION.

The Portland Argus says that Thursday the services were preceded by a conference and prayer meeting at 6 o'clock, A. M.

At 8½ o'clock a business meeting was holden, at which Richard Dresser, of Auburn, presided until the arrival of the President, S. F. Hersey.

Charges were presented against Rev. N. C. Chaffee, of Auburn. Report referred to Committee on fellowship and Discipline.

Missionary work was then taken up.

Rev. Mr. Snow, agent of the committee to raise a special centenary offering $35,000—$10,000 for Murray fund and $35,000 for Westbrook Seminary, made a favorable report, which was accepted.

It was voted that the centenary committee, consisting of Israel Washburn, Jr., N. G. Hichborn, C. S. Forbes, A. C. Dennison, A. Gunnison, C. P. Kimball, Sidney Perham, S. F. Hersey and Wm. Dunn, be continued with power to fill vacancies.

The Missionary Committee, consisting of Rev. A. Gunnison, Sidney Perham and Rev. J. C. Skinner, was continued.

The S. S. Committee reported recommending a gathering of this character to be holden at Auburn on the 4th and 5th of October, to ascertain if S. S. Teachers' Institutes are feasible and can be supported.

The programme for the meeting includes essays, and a general consideration and discussion of the subject. Pastors, S. S. Superintendents and S. S. Teachers will be expected to attend.

The following delegates were recommended to the National Convention to be holden next September, at the Universalist church, West Gloucester, Mass.: Revs. G. Moor, J. C. Snow, A. Battles, W. E. Gibbs, Messrs. Sidney Perham, L. L. Wadsworth, R. Dresser, J. W. Wakefield, S. F. Hersey, A. C. Dennison, N. G. Hichborn.

Hon. N. G. Hichborn presented a resolution which was adopted, that the Conference reiterates its former position, so often and fully expressed upon the various humanitarian and reform [illegible] especially on the temperance question, [illegible] it is the especial desire that all Universalists [illegible] practically identify themselves [illegible] elements of individual and [illegible] well-being.

The dedicatory exercises of Hersey Hall, Westbrook Seminary, were then performed. Rev. Mr. [illegible] delivering a very beautiful and [illegible] which abounded in gems of thought [illegible] finished production.

The Convention then took a recess for the [illegible] to the Murray, fund and to the Westbrook Seminary, which amounted to $[illegible]. [illegible] the sum assigned to [illegible] conference but does not cover the [illegible] on the seminary buildings [illegible] about $7000.

In the afternoon, [illegible] in the church consisted of singing, reading of the scriptures, prayer and a sermon preached by the [illegible] Text John v, 12.—[illegible] administered, [illegible]

The Convention then adjourned to meet [illegible]

Republican Nominations.

FOR GOVERNOR,

Hon. Sidney Perham

OF PARIS.

FOR REPRESENTATIVES TO CONGRESS.

3d District—Hon. J. G. BLAINE, of Augusta.
4th District—Hon. J. A. PETERS, of Bangor.

THE FALL CAMPAIGN.

"The most dangerous adversaries which we shall have to encounter in the fall campaign about to open, will be found in the apathy induced by the absence of unusually exciting national issues and the ill-advised obtrusion of points of controversy not legitimately involved in the canvass. We shall be confronted by an organization which can rely upon party discipline to call out its forces in nearly full ranks whenever required and without particular regard to the principles at stake, whereas it is always difficult to bring our party to the polls in numbers proportionate to its actual strength upon any but occasions of extraordinary interest. We should therefore strive to impress upon our friends the real importance of the approaching election, and in presenting the plain questions at issue, carefully avoid confusing or prejudicing them by reviving old or inventing new subjects of dispute. The control of our State administration is of itself a matter of sufficient import to demand the earnest attention of all good citizens, and the powerful influences which may be brought to bear through its action upon every branch of industry, and the undeveloped resources of the commonwealth, are such that every individual is directly and deeply interested in providing for their exercise by approved and trustworthy hands.

The Congressional elections which will also take place, are of equal if not greater importance, for in the representatives which Maine selects to speak for her in the National councils, not only our people, but the whole country, have an interest, and no duty of the citizen can be more imperative or serious than the selection of those who are to stand in the closest relations with the masses in the popular branch of our government. We depend especially upon them to sustain the great principles which the Republican party has established, while the most weighty public interests of the community are entrusted to their keeping, and as our State has been honorably and efficiently represented in the past, it should be our pride to spare no effort in electing our candidates this fall by majorities which shall express our appreciation of services performed and prove a high incentive to future usefulness.

The cause of temperance has been more fully recognized in the present canvass than ever before, and its guardianship having been intrusted to the Republican party, its future advancement will depend, as its past protection has depended, upon the success of that party at the polls. Every earnest friend of temperance should see to it therefore, that no unnecessary word be spoken to mar the harmony of effort, and that no expression or action of distrust shall repel the assistance of those who are willing to give generous help.

We have no sympathy with those who are forever blocking the wheels of practical reform with untimely demands, and inopportune exhibitions of independence and self-assertion. When a great and successful party voluntarily assumes the championship of an important principle, we expect from those whose cause is thus espoused a reasonable acknowledgement of fellowship in the common effort, as dictated by a sense of political honor if not of gratitude, and our recent criticism were directed at an element in our politics which, whether represented by an unimportant few, or more considerable numbers, has ever manifested a disposition to impede if not to sacrifice any movement, however praiseworthy, which it could not wholly control.—The accuracy of our portraiture has been promptly recognized by the haste with which two journals have threatened to "shake off their lightly worn habiliments of Republicanism and assume the championship of a faction whose useful occupation is gone." We would say to them, that only by common effort can we overcome the common enemy, and that he who is not for us in this campaign is against us.

The imputations of spite at the result of the Convention we pass over lightly, as coming with a poor grace from half contented members of a majority, preferring against those who have cheerfully yielded their preferences, and given a hearty endorsement to the expressed will of the party whose triumph with the broad policy which it represents, is more to us than the success of a candidate, and worthy the united and zealous co-operation which we trust will be extended to secure it.

CORRECTION. In the statement of the cost of the new Road from St. John to the State line, published in our Saturday's issue, a transposition of figures caused an important error.—Instead of $3,733,000, as printed, it should read, bonds issued, $1,733,000, and total cost, $3,013,000. A gentleman connected with its construction states that the road was opened under adverse circumstances in December last, without wood or other preparations for running it, and so much earlier than was anticipated by the public, that it has hitherto labored under disadvantages which time is rapidly removing, and which will soon cease to check its profitable development.

NEW YORK ON CHINESE LABOR. At a meeting of the N. Y. Workingmen's Union on Friday night, the introduction of Chinese labor into the country was forcibly denounced as a continuance of slavery, and Massachusetts men declared slaves deserving of the punishment of death. Nelson W. Young, President, explained the evils resulting from cheap labor, and another speaker advocated an appeal to force, saying that if the Government would not keep the Chinese out the Government should be removed, and all were unanimous in demanding from Congress such measures as would put a stop to the importation of Chinese. Resolutions to this effect were adopted and several speakers urged that if this failed recourse should be had to arms.—A mass meeting of workingmen, to protest against the importation and employment of Chinese, will be held Thursday evening of next week.

SPECULATIONS IN GRAIN. On account of the extensive speculations in grain and whisky there was a general movement in Chicago, on Friday, on the part of the banks, to discriminate against grain paper in discount, to relieve the money market from its present stringency, and themselves of the burden of carrying the large stocks of grain held there. The discrimination will undoubtedly be abandoned on the decline of the speculation, and when the shipping movement is developed.

In consequence of the vast number of laborers, both native and foreign, awaiting employment in New York, and the large Southern demand for laborers, the New Jersey Railroad and Transportation Company have provided special [illegible] for transportation by car loads of fifty. One Southern agent forwarded 400 laborers two days after his arrival.

THE HAMILTON CAMP MEETING.

The National Camp Meeting which assembled at Hamilton, Mass., on Wednesday last, has been largely attended during the four days of last week and the services were impressive and interesting. On Thursday the Tabernacle Tent was dedicated with religious services conducted by Rev. Mr. Inskip, President of the Association, who gave a brief history of the origin and success of this kind of meeting. On Saturday the crowd was larger in number than the previous day.

The usual before breakfast prayer meeting was held in the Tabernacle tent, Rev. C. A. King of Augusta, Me., presided. At eight [illegible] prayer meeting also, was held at the same place, and was led by Rev. Father Merrill of Cambridge, Mass. Both meetings were numerously attended and were of marked interest.

In the forenoon service, the sermon was preached by Rev. Seymour Coleman, of the [illegible] Conference, who based his discourse upon a passage in the 12th chapter of Revelation, from the 7th to the 11th verse inclusive. The afternoon sermon was by Rev. L. R. [illegible], of the New Jersey Conference. During the afternoon there was also a children's prayer meeting, and a general prayer and experience meeting, and in the evening the customary service was held.

THE NARRAGANSETT RACES.—At the Narragansett Park on Friday the first race for $2,[illegible] for horses that never trotted better than [illegible] was won by Prince Hickory Jack, second Dew Drop, third Dick, fourth White Fawn, fifth. Time 2:31½, 2:32½, 2:32, 2:35, 2:33½. The second race for $3,000, for all horses, was won by Goldsmith Maid; American Girl, second; George Palmer, third; Lady Thorne was drawn. Time: 2:21½, 2:22½, 2:25, 2:23½, 2:[illegible].

The New Hampshire Legislative Committee were in session during the whole of Friday, hearing testimony upon the merits of the Concord and Northern Railways. The evidence is said to be unfavorable to the [illegible].

In the late Cork riots barricades were erected and obstinately defended until charged and carried by cavalry. Many of the people were wounded and one soldier had his skull fractured. The leaders were arrested.

The Inman steamship City of Brooklyn, which left Liverpool on Thursday for New York, ran down and sunk the Geiser off [illegible] Ireland, Friday. The crew of the Geiser were saved and the steamer not being injured, proceeded on her course.

In the Corps Legislatif on Friday, the French Minister of Agriculture and Commerce explained that notwithstanding the drought, the government had satisfactory reports of the crops and that no precaution or provision had been neglected to guard against famine.

The Ecumenical Council will sit through the summer. One hundred speeches are yet to be heard on Infallibility. A new definition has been proposed, designed solely to disorganize the minority. The Fathers who are hostile to the dogma continue to receive congratulatory addresses.

Many of the foreign insurance companies doing business in Chicago are getting into trouble by attempting to evade the laws of the State regarding insurance. They have instructed their agents to pay no attention to the laws, while the Auditor publicly announces his determination to enforce them.

THE WORCESTER EXPLOSION. Worcester papers give full particulars of the terrible nitro-glycerine explosion there—the third which has occurred in New England during the week. At twenty minutes past 10 in the forenoon, the city was startled by a tremendous explosion, which shook buildings to their foundations, and at the same time a dense column of smoke was seen to rise in the far north, the Boston & Albany Railroad Junction. So unusual and alarming a report at once drew an immense throng of people toward the spot from whence it proceeded, where a scene of devastation presented itself such as had never before been seen in the city. The explosion took place on board of the last car on a freight train on the Boston & Albany Railroad bound West. The train had just stopped before crossing the junction, and the explosion took place at the moment of starting up again. The car was totally demolished, the trucks driven deep into the ground, or broken in fragments, the axles severed like pipe-stems, the [illegible] displaced, bent like withes, and hurled to a great distance from the road.

At Millbury, six miles distant, closed doors were thrown open, and people thought an earthquake was shaking the ground. At Oxford, eleven miles distant, the window glass rattled briskly, while at Uxbridge, eighteen miles from there, the noise of the explosion was said to have been distinctly heard, and from many other places like reports are received.

The track at the locality where the accident occurred is twenty or more feet above the neighborhood, and that fact is doubtless the reason that more people were not killed or fatally injured, as the force of the explosion was exerted sidewise chiefly. Still the devastating effects were without a precedent in this city. Gardens were swept clean of every living thing, and plants, while the houses on Southbridge street, for a quarter of a mile were almost entirely destroyed. The windows of Allen & Co.'s fire-arms factory, nearly a quarter of a mile distant, were all blown in, leaving scarcely a score of panes of glass unbroken. Nearly every other building within a quarter of a mile of the explosion suffered severely by broken windows. The Worcester Academy, formerly the Dale Hospital, a mile distant, suffered similar injury. The express train to Providence, loaded with passengers, passed the freight train not more than half a minute before the explosion and some of the windows in the rear car were demolished.

An Irishman named Timothy Crehan who worked for Mr. Parks [illegible], manufacturer of machinist tools at the Junction, started down the track a few moments before the explosion, on his way to another shop with a pattern. He has not been seen since, but portions of a human body were subsequently picked up in all directions, here an arm, there a leg, and in another place a head, and it is believed they are the remains of this man.—Besides the above named man none were seriously injured, although thirty or forty were more or less bruised and cut by glass, plaster and splinters. All of these were properly attended to and the citizens vied with one another in offering shelter and care for those who have been thus suddenly deprived of homes.

The explosive freight was directed to North Adams and was on its way to the Hoosac Tunnel.—No correct estimate can be put upon the damage done, but probably $150,000 will cover it.

The corner stone of the Rhode Island Soldiers' and Sailors' Monument was laid at Providence yesterday afternoon by the Free Masons, in pursuance of an invitation of the General Assembly. The entire Masonic body of the State was in the line, with numerous bands of music, and made a grand appearance. At the site of the monument an address on Masonry was pronounced by the Rev. H. W. Rugg, and an oration by Gen. Van Zandt.

The Democratic members of Congress have prepared an address advising their political friends to be particular in the selection of candidates, and in view of the fact that one third of the U. S. Senators are soon to be elected, they are urged to adopt means to secure the largest possible number.

Proprietors of lots are requested that it is necessary to give their orders for clipping the grass, raking off leaves and other work, to the Undertaker, if they desire such labor performed.

MR. LOWNEY, having the care of [illegible] the duties of [illegible] the grounds, cannot be expected to do such labor unless directed.

It is estimated that two dollars a year is a proper compensation for the ordinary care of a lot requiring it. If cleaning marble, repairing graves, or new sodding is done, the charge should be according to the service performed.

Particular instruction have been given that no exception [illegible] be made.

The Responsibilities of the Liver

The Liver has a very important part to perform in the animal economy. Its function is two-fold. The fluid which it secretes is [illegible] upon the bowels, and upon the quantity and quality of the secretion depends, in a great degree, the healthful condition of the blood to the requirements of the system and the due removal of the refuse matter which remains in the intestines after the work of digestion has been accomplished.

One of the principal uses of Hostetter's Stomach Bitters is to tone and regulate this important organ. The antibilious properties of the preparation are scarcely secondary to its virtues as a stomachic. Its operation upon the liver is not violent like that of mercury, but gradual and certain. Instead of creating a sudden tumult in the system, it regulates it [illegible] by degrees. [illegible]

FORTY-FIRST CONGRESS—SECOND SESSION.

WASHINGTON, June 25.

SENATE.

Mr. Howard, from the Select Committee on the petition of Messrs. Davis and Hatch, in connection with the Dominican treaty, submitted a written report, with the testimony taken in the case, recommending an indefinite postponement of the subject.

Mr. Schurz said he would, during the day, present the views of the minority committee, consisting of Messrs. Ferry, Vickers and himself.

He subsequently introduced a bill entitled a joint resolution relative to the complaint of Davis and Hatch against the Dominican Republic, which was laid over and ordered to be printed.

The resolutions reported from the Committee on Foreign Relations on Cuba, were then taken up on motion of Mr. Sumner and Mr. Casserly continued his remarks.

At 1:35 the subject went over and the House naturalization bill was taken up.

Mr. Drake, in referring to the alleged enormous frauds at the elections in New York predicted a general civil war as a certain result of the success of the candidate for the Presidency elected by that vote.

The report of the Committee of Conference on the bankrupt bill was submitted and adopted.

Mr. Saulsbury said that every election since the passage of the 15th amendment had gone adversely to the Republicans, and now they are afraid to depend upon 70,000 ignorant colored voters they had manufactured; that the party wanted to exclude hundreds of thousands of naturalized voters so as to carry future elections.

Mr. Vickers followed in opposition to the bill, which he characterized as outrageous and unprincipled.

After further remarks by Messrs. Vickers and Bayard against the bill, at 5:30 an understanding was effected that the bill should be postponed till Saturday next, upon the condition of its being then finally disposed of.

The Senate then adjourned.

HOUSE.

The Senate bill changing the boundaries of land districts, was passed.

Mr. Dawes of Mass., appealed to the House to take up the Sundry Civil Expense Appropriation bill, as the chairman of the Senate Finance Committee informed him that unless the bill was sent to the Senate by Monday, an extension of the session would be necessary.

The House proceeded to the reports from the Committee on Commerce.

Mr. Dixon of R. I., reported back the Senate bill to reorganize the Marine Hospital service and to provide for the relief of sick and disabled seamen.

Amendments changing dates from May to August were agreed to, and the bill passed.

The Senate bill to incorporate the National Bolivian Navigation Co. was opposed by Messrs. Wood and Potter of N. Y., as proposing to nationalize a foreign company and establish a dangerous precedent in chartering private corporations.

Mr. Dixon of R. I., said that the bill was a practical move to resuscitate American commerce without subsidies, drawbacks or anything but the right to transact business.

Mr. Logan of Ill., moved an amendment reserving to Congress the right to amend at any time. Agreed to.

Mr. Garfield of Ohio, moved an amendment requiring the principal office of the company to be in New York. Agreed to.

The bill then passed, 98 to 64.

Mr. Bingham of Ohio, from the Judiciary Committee, presented a report in the case of assault on Congressman Porter by Patrick Woods at Richmond, Va. The report orders Woods to be punished by imprisonment in the District of Columbia jail for three months, and directs the Speaker to issue a warrant to the Sergeant-at-arms, directing the execution of the order.

The report was ordered to be printed together with the views of the minority.

The House then went into Committee of the Whole on the civil expenses appropriation bill and refused to strike out the appropriation of $94,651 for the completion of the main central building of the Columbia Institution for the deaf and dumb. It added $1,000 for the completion of the Custom House at Wiscasset, Me., and added to the appropriation for the New York and Boston Post-offices and a provision authorizing the Secretary of the Treasury to contract for the buildings in advance of the appropriation of the money sufficient to complete the same in accordance with the provisions of the deficiency appropriation bill.

The death this morning of David Heaton, a member from North Carolina, was announced and the customary eulogies and the adoption of resolutions including one for a committee of five to accompany the remains to the National Cemetery at Newbern, N. C., after which the House adjourned.

NEW YORK ITEMS.

NEW YORK, June 26.

A commission is now sitting at Kingston, N. J., to inquire into the alleged lunacy of Geo. Von Breck, who left a wife and family in Germany, married again in the United States and got his second marriage legalized by the legislature in 1841. When his first wife arrived in this country last spring he abandoned his second wife, who died of a broken heart, and a suit is now brought by her children to secure and have Von Breck's extensive property, on the ground of his insanity. Von Breck was formerly mayor of Salsebury, Germany, and a prominent officer of the State militia and paymaster of the Delaware & Hudson Canal Co.

The immigrants last week numbered 7170, a marked decrease as compared with the first two weeks of the month or corresponding weeks of last year. The falling off is due to the landing at Portland and Boston of several steamers whence the immigrants were forwarded by rail to this port.

Delia Dickinson yesterday recovered $[illegible] from the 7th avenue railroad company for injuries received on their cars.

MEXICAN AFFAIRS.

SAN FRANCISCO, June 25.

The city of Guaymas, Mexico, was surprised May 28th, by an armed force under Col. Vascanzlo, in the interest of Placido Vega.

The troops landed from the steamer Forward, formerly an English gunboat, and entered the city without opposition.

The Collector of Customs and other officers, were seized, possession of the custom house taken, and notices given to the citizens to pay outstanding duties estimated at $100,000, which were collected.

The vessels carried away two vessels and 2000 muskets which they had seized in the city. The U. S. Consul protested against the seizure of the arms.

Forty-two tons of coal were taken from the Northern Transportation Co., a draft on Ortiss Bros. given in payment. A demand for $25,000 was made upon the same firm, and the money not forthcoming, $50,000 worth of merchandise was seized.

Gov't troops appearing on the 20th, Vascanzlo evacuated the place, the Forward steaming out of the harbor with the sailing vessels in tow.

During the occupation order was maintained and foreigners were unmolested.

The prisoners were all released with the exception of Mejia of the Paymaster's Dep't, a son of the minister of war Modive, of the Supreme Gov't. The U. S. Consul urged his release, but Vascanzlo replied that his orders were positive to keep him a prisoner.

It is supposed that the expedition will visit Lapaz, Mazatlan and other points and attack them in furtherance of the scheme to establish a North-western Mexican Republic.

LOCAL AND OTHER ITEMS.

—A gentle rain commenced falling shortly after 6 o'clock last evening.

—Potatoes took another rise Saturday, as will be seen by our market report.

—Coats and vests have been decidedly unpopular during the past two or three days.

—One case of simple drunk in the lock-up Saturday. It was too hot to get up a row.

—Musical societies are being formed in every house-hold—by mosquitoes.

—Mr. Isaac Danforth has sold the "Billings Stable" on the Hampden road to Mr. O. M. Shaw of the Bangor House.

—Farmers are beginning to purchase their scythe stones. They choose a gritty article, in order to get a close shave.

—We noticed quite a raft of white ash lumber in the Kenduskeag stream yesterday. As that quality of wood is scarce, we do not often see so much together at one time.

—Strawberries are coming in plenty, and now we shall soon expect to hear from "Mr. Pertlagill" and his operations out on the blueberry plains.

—Double the quantity (by measure) of the knives and forks that we mentioned Saturday, will be used at the Masonic Dinner, and our latest report gives 10 bushel baskets-full as the correct thing.

—We learn that M. Schwartz, Esq. will display for the first time put out a sign on his magnificent new granite block in West Market Square. We believe his friends intend celebrating the occasion by a call at the store in the evening.

—We learn that J. W. Hathaway, Esq., of this city, has been presented with a splendid gold watch by the National Life Insurance Company, of which he is general agent for Eastern Maine and New Hampshire, for sending in the greatest number of policies of any agent during the year 1869.

—At the annual meeting of Maine Lloyd, on Tuesday, June 21st, R. B. Fuller was chosen Attorney and the following Advisory Committee was elected: William McGilvery, Searsport; Washington Ryan, Portland; George Stetson, Bangor; Nathan C. Ayer, do.; Henry E. Prentiss do.; Isaiah Stetson do.; N. A. Farwell, Rockland; Charles Hayward, Bangor; Samuel F. Hersey, do.

ST. JOHN'S COMMANDERY. The members of St. John's Commandery, should bear in mind that both of the Portland Commanderies and the Skowhegan Commandery will arrive by regular trains this evening and will be escorted to their quarters. Portland Commandery will quarter at the Bangor House, St. Alban and De Molay at the Franklin House.

SHORT MARCH. It is earnestly desired that every Mason appear in the procession to-morrow, and we think the Committee have done wisely in locating the shortest possible march, so that the oldest Masons can join with us. The march is less than a mile, not nearly so far as many persons walk to their meals. Let the ranks be filled.

—Strickland's Block, so nearly destroyed by fire in March last, has been reconstructed, an additional story and a Mansard roof put on, which makes it one of the prettiest fronts in the city. The carpenter work was done by Messrs. Cutter. The following persons, driven out by the flames, have resumed their forces on the street level: J. A. Chapman, clothing; David Bugbee & Co., books, periodicals, fancy goods and book bindery; James Hurley, gents furnishing goods and clothing; Timothy Hurley, ditto; Wm. H. Flagg, Boots & Shoes; W. A. Dresser, clothing and furnishing goods.

THE WEATHER. Saturday was by far the hottest day of the season, the thermometer indicating in different parts of the city, from 96 to 100 in the shade between 12 and 1 o'clock P. M. In Lewiston, the mercury ranged from 96° to 106°; Portland, 96°; New York, 94°; Philadelphia, 95°; Pittsburgh, 74°; Washington, 91°; Savannah 90°; New Orleans 91°; Havana, 91°. Sunday was a little cooler, as a breeze from the South tempered the heat to a bearable degree.

YALE'S MAMMOTH TENT arrived by steamer Katahdin Saturday, and is now standing on the common covering the 2200 feet of tables and surmounted by a flag staff bearing a Masonic flag, indicative of the character of the celebration which is to take place. We trust our Masonic friends will have a fine day. If they are unfortunate and do not, they must console themselves with the fact that they have one of the finest halls in the country fully paid for, which of itself should comfort them for any smaller misfortunes.

WASHBURN MEMORIAL CHURCH. This house of worship was to be dedicated last Saturday, and Rev. Wm. T. Sleeper installed as Pastor, yesterday. Rev. Horace James of Lowell, delegate from Massachusetts to the General Conference, which met at Yarmouth, said in his remarks before the Maine Missionary Society, that he was on his way to aid them in the services of dedication and installation. Mr. Sleeper had been expecting to be present at the meeting of Conference, to ask aid in procuring $600 to pay the balance due on the building, so that it might be dedicated free from debt. The injury he had received, prevented his attendance and Mr. J. would be glad to take the amount to him. The audience responded at once, and $604 was paid or pledged. Rev. J. Cameron of Greenville, another Missionary field, spoke of their need of a church bell in Greenville, and the people of Portland are to furnish it. He says it will be the nearest to the North pole of any in America.

UNION PARK. This spot, so long neglected, has been thoroughly "overhauled," and the work was completed on Saturday. The city appropriated $150 for the purpose and the work has gone on under the immediate supervision of Alderman Dole, who had given his personal attention to it. The lawn has been plowed, heavily dressed and seeded down, so that in a short time it will be covered with a thick carpet of grass. The diagonal walks have been straightened, gravelled and bordered with turf, and at their intersection in the centre a circular walk has been laid, in the middle of which is set a handsome elm tree. Mr. Shaw, landlord of the Bangor House, whose tastefully laid out grounds adjoin the Park, has co-operated with Mr. Dole in the repairs, and both gentlemen have advanced from their own pock-ets considerable sums, which the insufficiency of the city appropriation rendered necessary for the full completion of the work.

BOUQUETS. The ladies of Bangor have responded with their usual liberality to the call for bouquets and no doubt a sufficient number will be obtained to decorate the tables. All who can furnish one or more bouquets or those who can cut flowers to be made into bouquets, are requested to leave them as early as possible on the morning of the 28th, at the unoccupied house on Lime street, South of the common, where ladies will be ready to receive them. It should have been mentioned yesterday, that Albert Noyes, Esq., offered to furnish all the flowers which his extensive green house would afford. They have also received offers of bouquets from Mrs. Boardman on Lime street, Mrs. Collamore, Mrs. Oak, Mrs. G. W. Merrill, Mrs. J. M. Dickey, Mr Patch and others.

SUN STROKE. About 1 o'clock Saturday afternoon, a woman walking along Exchange Street, was observed to stagger as she got opposite the Exchange, and a gentleman who was passing assisted her to a seat upon the steps. Mr. Smith, Clerk of the Exchange, immediately helped her into the parlor and brought her some water, but being busy went out for a short time and on returning found her gone. Her name is Mayo and she resides on Thomas' Hill, where she keeps a boarding house. She was intending to go to Amherst on the Air line stage, but her little boy who accompanied her strayed away while she was in a store, and in the hurry and excitement of searching for him, she was affected by the heat so much that she was nearly helpless. We learn that she made her way home with difficulty, many people on the way attributing her unsteady and feeble walk to intoxication.

MASONIC DEDICATION. To-morrow will be a busy day with the Masonic Fraternity of Bangor. At 10 o'clock their new and elegant apartments on Main street will be dedicated in ample form by the Grand Master, after which Geo. W. Snow, Esq., will give a brief history of Masonry in Bangor, from its first introduction to the present time, which will be quite interesting, especially to our citizens who have long resided here, and which will be published in full to-morrow. During the Dedication services, St. John's Commandery will be busy receiving and escorting to their quarters the various Commanderies from abroad which will arrive by boat and railroad.

At 12 o'clock a procession will be formed under the charge of Gen. H. M. Plaisted Chief Marshal, which will move directly to the Common on Lime street, where tables are set under Yale's Mammoth Tent for the accommodation of 2300 Masons. After the collation has been disposed of, the final report of the building Committee will be made by Maj. J. Fenno, Chairman. An Oration will be delivered by Hon. J. H. Drummond of Portland and a Poem will be given by David Barker, Esq., of Exeter. The exercises at the tent will be interspersed with music, speeches, sentiments, &c.

In the evening there will be a reception at Masonic Hall and a Ball at Norombega Hall, to which all Masons are invited. Members of the several Masonic bodies in Bangor, resident Masons and persons not members of the fraternity, will be expected to purchase tickets to the ball.

The fraternity of Bangor have displayed remarkable liberality in building and furnishing such elegant apartments, and they are naturally anxious that the fraternity generally and especially those of their immediate neighbors who frequently meet with them, should be present on the occasion, and rejoice with them in the successful close of their labors.

BURGLARY IN WINTERPORT. Our correspondent writes that on Thursday night, at 10 o'clock, as the hired man of C. H. Treat, Esq., came to the house, he found the door locked so that his night key would not admit him. Having rung the door bell several times, he was finally answered by the female domestic, who declared her surprise, as she heard some one come in half an hour before, and supposed it was him; and further, that when she retired she left the door unlocked. A hasty search about the house disclosed no one and nothing missing, and both retired. Soon the man heard cautious footsteps on the front stairs. He immediately dressed and left the house to look for the supposed robber, leaving the door and taking the key with him. On his return a thorough search was made. No one was found in the house; but on going round the house on the outside, two men were started up. They were pursued, but they took through the fields for the woods, and succeeded in escaping. It is supposed they were after the silver ware, which, however, was not where the rogues expected to find it, and they failed in their attempt. Mr. Treat and wife were out of town at the time.

TO PROPERTY OWNERS. The consultators have begun work in this city in earnest, but they find great difficulty, without making several calls at a place, to ascertain the amount of property owned by the head of the family. Not one wife in five hundred is aware of the value of her husband's property and children cannot, of course, be expected to know. If, therefore, the heads of families will write down in figures upon a card or slip of paper the exact value of their real estate and personal property—keeping the two items distinct by themselves—and leave it at their homes so that it can be handed to the Marshals when they call, much time and trouble will be saved both parties. The Marshals are forbidden, under heavy penalties, to divulge information thus obtained.

—The Gazette says that Charles Shaw, a young man about 19 years of age, cook of a vessel bound from Bangor to the West, with lumber, received a very severe cut across the "knee pan" with a hatchet while passing Rockland. The Captain knowing him to be incapacitated for further labor, put him on shore at Spruce Head, where he had neither money or friend. He succeeded, amid the storm to get to Rockland, after the accident had taken place nearly 24 hours, and was found on the steps of Dr. G. C. Estabrook at the North End at near 9 o'clock on the evening, sitting in the rain exhausted from the loss of blood and fatigued. Dr. E. discovering him took him to his office, dressed his wound, and took him in his carriage to the house of a kind friend where he is now doing well.

—The down passenger train on the Grand Trunk Railway, Saturday afternoon, was thrown from the track near West Paris. The engine and a box car containing salmon were badly smashed, and the Engineer, and Fireman somewhat bruised. No one else hurt.

—Speaker Blaine has got a resolution through the House giving six condemned cannon with necessary round shot for a soldiers' monument in Gardiner, Me. It will, of course, be looked after and passed by the Senate early this week.

—The Kennebec Journal says that it is feared that Lieut. Chas. Drew of Augusta, of the U. S. Army, son of Rev. W. A. Drew, has been killed by the Indians in a recent encounter in New Mexico.

—The total valuation of Lewiston for 1870 is $6,571,719. The rate of taxation is 3 per cent; aggregate taxation, $105,424. Of this amount the Bates Manufacturing Co. pay $23,250; Androscoggin Mills, $21,750; Hill Manufacturing Co., $21,750; Franklin Co., $20,250; Continental Mills, $11,250; Lewiston Mills, $10,500; Lewiston Machine Co., $2,100; Lewiston Falls Manufacturing Co., $1,550; Lewiston Gas Co., $900; Lewiston Steam Mill Co., $900; Lewiston Savings Bank, $900; total paid by [illegible] taxes, $114,900. The only firms or individuals taxed exceeding $1,000 are [illegible] $[illegible]; and N. W. Farwell, [illegible]. Firms and individuals are taxed $500 and upwards, viz.—Bates & Watson, $[illegible]; J. Dingley & Co., $[illegible]; Cobb & Co., $[illegible]; Jessie Davis, $[illegible]; Holland, $560; P. McGillicuddy, $[illegible].

Oliver Record has been appointed Postmaster at Livermore Falls, vice Silliman, Reed, resigned.

—John L. Thompson of Boston, hired a [illegible] team in Portsmouth, drove to Biddeford and offered to sell it for $[illegible]. City Marshal Hill of Biddeford, arrested him and took him to Portsmouth, where he is in jail in default of $500 bonds to appear at the October term of the Supreme Judicial Court.

—The Press says that Mr. George Loring died very suddenly Thursday, at the advanced age of 80 years. He went out to a store a short time before his death. When he returned to his lodgings he sat down at a table and soon after lifted his hands, exclaiming "I am gone," and died immediately.

—The Lewiston Journal says three new and fine organs are to be placed in churches in that vicinity within a few weeks, one in the new Free Baptist Church, one in the Catholic Church, and one in the Court Street Baptist Church, Auburn.

BANGOR POLICE COURT.

BEFORE JUDGE CLARK.

Saturday, June 25th. The Court this day brought in a decision in the case of State vs. Wm. McCarthy, for selling intoxicating liquors contrary to law, finding him guilty and sentencing him to pay a fine of $50 and costs. He prudent [illegible] [illegible] furnished bail for his appearance at the next criminal term of the S. J. Court.

BANGOR PRODUCE MARKET.

SATURDAY, June 25th, 1870.

The following report is obtained by personal observation on the market, and the quotations are the prices paid for produce to the country team this day, or about the average for the week past:

HAY. Loose hay comes in plenty, and the most of it is of good quality, looking bright and fine; the best lots selling at from $14 to $17, and occasionally a load at $18 per ton. Poorer qualities sell at prices varying from $10 to $13.

STRAW is brought in plenty enough to supply the demand at from $8 @ $10 per ton.

OATS are scarce on the market, and are usually so at this season of the year. They are selling quick at [illegible] cents per bushel.

BARLEY is worth from 85 to 90 and 95 cts. per bushel, according to quality.

BEANS. Yellow eyed beans, clean and nice, sell at $2,25 per bushel, and extra pea beans are worth from $2,50 to $2,75, and occasionally a very extra lot sells at 3,00.

BUTTER comes in quite plenty, and the most of it, in consequence of the warm weather, very soft. We should quote it on the market from 22 to 2[illegible] cents per pound.

EGGS have sold at various prices during the past week, but to-day settled down to 2[illegible] cents per dozen and are probably going still lower.

POTATOES seem to be about the only article of produce that the buyers run for on the market, and to-day they are selling current at $1,[illegible] per bushel.

STRAWBERRIES are coming in quite plenty. Field fruit is selling at from 20 to 25 per quart, and cultivated at from 25 to 30 cents.

POLITICAL AND PERSONAL.

The Texas Senate has passed the militia bill—15 to 5.

Ellis Peterson has been appointed Assistant Professor of Philosophy at Harvard College.

We see it stated, that Phillips has chosen Frye delegates to the Congressional Convention.

Sir John Young, Governor General of Canada, has been appointed also Governor of Prince Rupert's Land.

Queen Victoria gave the first State break-fast since the death of her consort, on the Windsor Castle lawn on Friday.

Nearly all the districts and counties in North Carolina have made their nominations for the August elections, and the canvass is about to open in earnest.

General William B. Thomas was re-nominated Friday night for Congress by the citizens of the Fourth District of Pennsylvania as an independent candidate in opposition to Hon. William D. Kelley.

A Washington telegram states that President Grant recently mentioned to several Senators that he intends to remove Mr. Motley, Minister to England, as soon as a suitable successor can be found.

The contest for a Republican candidate for Governor of Missouri is exciting even to bitterness. B. Gratz Brown, Gov. McClurg, and Messrs. Stanard, Benjamin and Van Horn are prominent among the names discussed.

Mark H. Dunnell appears to be the most prominent candidate for the Republican nomination in the First Minnesota Congressional District. Already three of the counties in the district have sent delegations to the convention instructed to vote for him. Mr. Dunnell is a native of Maine and has lived in Minnesota but a few years.

The following nominations by the President were sent to the Senate on Saturday:—Alonzo B. Cornell [illegible] Ass't Treasurer at New York City; Wm. C. McGowan Assistant Paymaster in the Navy: Homer T. Low Ass't Surgeon in the Navy. Postmasters—George W. McKay, at [illegible], [illegible] A. Whitney, at Nantucket, Mass., and T. J. Deakam at Stamford, Conn.

Biddeford, [illegible] evening, completed the election of delegates to the first District Republican Congressional Convention, by choosing six delegates opposed to Mr. Lynch's nomination, by a vote of 280 to 105. Lynch delegates were chosen in Portland, Friday, by a vote of 144 to 141. The Press says that Lynch will have 183 delegates to 70 opposed.

The French Council of Ministers have refused to grant permission for the Orleans Princes to return to France.

BUSINESS ITEMS.

A LARGE NUMBER OF LADIES visited Dr. Richards at the Bangor House, on Saturday. Dr. RICHARDS will remain in Bangor but a few days longer. Do not delay your visit.

No. 5 Kenduskeag Bridge, Bangor

June 17, 1870. [illegible]

Mild, certain, safe, efficient. It is far the best Cathartic remedy yet discovered, and at once relieves and invigorates all the vital functions, without causing injury to any of them. The most complete success has long attended its use in many localities; and it is now offered to the general public with the conviction that it can never fail to accomplish all that is claimed for it. It produces little or no pain; leaves the organs free from irritation, and never overtaxes or excites the nervous system. In all diseases of the skin, blood, stomach, bowels, liver kidneys,—of children, and in many difficulties peculiar to women, it brings prompt relief and certain cure. The best physicians recommend and prescribe it; and no person who once uses this, will voluntarily return to the use of any other cathartic.

VEGETINE.

[illegible] No disease can be in the body without first being generated in the blood; and no disease can possibly be in the body if the blood is pure. It is of great importance to know what medicine will purify and renovate the blood, eradicate the disease, renew vitality, mentally and physically, and instil fresh vigor into all the vital functions of the body. The safest and most reliable medicine is VEGETINE.

Bangor, June 22, 1870.

To vote, or not to vote, that is the question;—
Whether 'tis nobler to forego the suffrage
And bear the stings of outrageous fortune,
Or take up arms against our sex's troubles,
And, by opposing, end them? To vote—to wed—
No more, and by a marriage say we end
The heartache, only to nurse the little ills
Women are heir to—'tis a consummation
Not for Joseph, if the Court herself doth know;
And that she doth is most indubitable.
To vote—to act, perchance, a farce, ay,
There's the rub, for by this act what fights may come,
When we have shuffled off our crinoline?
This makes us pause, this, too, is the respect
That makes calamity of woman's suffrage;
For who would bear the kicks and cuffs of man,
The oppressor's fists, our lords contumely,
Assault and battery, and the law's delay,
The insolence of bummers, and the spurns
That patient women from rough loafers take,
When, to avoid it, she could stay at home,
And use her bodkin? Who would muskets bear,
Or groan or sweat under a mechanic's life,
But for the pleasures of Emancipation—
The rich Golconda, from whose gaping jaws
The flesh pots yawn in tantalizing plenty?
But there's the afterclap!! This puzzles the will
And make us rather bear the ills we have,
Than fly to the horrid inexpressibles
Thus cowardice makes babies of us all,
And thus our petted suffrage resolution
Are sicklied over with the pale cast of fear,
And enterprise of glorious ballot stuffing
Must fade, alas, because our suffering sex
Dare not imbibe the soul-inspiring rye
To give us vim and action!

WILD BEES.—The bumble-bees come singly, never in pairs, and only one sex—the female. In the bee kingdom royalty is confined exclusively to the females. All females are queens. Where this large queen bee, which is the only one we see in the Spring, comes from is a mystery—apparently from a warmer region, like the birds; but the books say a few escape the rigors of the winter in a torpid state, and come out in the Spring like the frogs, etc. At any rate there is no doubt some special provision of nature for it, since it is only the queen that lasts over. She is impregnated by the males in August, goes into winter quarters in the Fall, in some snug retreat or other, and lies torpid till Spring.

"When the fierce northwestern blast
Cools sea and land so far and fast,
Thou already slumberest deep,
Woe and want thou canst outsleep!
Want and woe, which torture us,
Thy sleep makes ridiculous."

After the long nap the queen-mother appears fresh and new, hunts out some abandoned mouse nest in the meadow-bottoms or in a stone heap, or some such place, and sets up her household gods solitary and alone. A few rude cells or sacks are constructed, eggs deposited, and in due time, say in early June the young appear. These are neuters, neither male nor female, but workers. These proceed to build other cells and fill them with honey, relieving the queen of all care but the laying of the eggs. The first honey is very delicious, being clear and white, like the clover. Ordinarily, the quantity found in a single nest is very small, scarcely more than a large tablespoonful. One summer, when a boy, by making it a point, I collected quite a boxful in the comb, making, when pressed out about a pint of clear honey, and representing the labor of two or three dozen swarms.—*Putnam's Magazine.*

$100 Bounty.

The Supreme Court of the United States has just decided that those Soldiers who enlisted under the first call of the President, prior to July 22 1861, and who were honorably discharged, are entitled to a Bounty of $100.

The bounty has heretofore been refused to Soldiers who served less than two years, unless discharged on account of wounds. Under this decision, it will be paid to those discharged by reason of disability.

We are authorized to procure this bounty, and will collect it for those entitled, promptly, and at the lowest rate.

Applications will be sent by mail upon request, to those who cannot call at our office. Those for whom we have not previously drawn [illegible] will send their discharges to us, and we will send the necessary papers.

M., at public auction, without reserve, the following valuable property, consisting of fifteen acres of [illegible] land, situated in Bangor within ten minutes walk of the Post Office. This land is bounded by Union Street, Thirteenth and Fourteenth Streets, Twelfth Street, and the extension of Cedar Street. In the center is located a fine new House, containing fourteen rooms nicely painted and papered, A Cistern containing 40 hogsheads of water, a fine well of never failing hard water and a splendid granite Cellar under the whole building together with all the modern improvements. The barn and out-buildings are the best of kind. The purchaser can have in addition, three acres of Potatoes, four acres of Grass.

Gentlemen are requested to call and examine the said property, as I shall be on the premises from the 27th instant. Title perfect. Terms easy, and made known at Sale.
